

BRING BACK THE TRAINS!

to North-West Connecticut

Grand Central NYC to the Berkshire Hills

Passenger rail is coming back to NW Connecticut. Get involved at
www.TrainCampaign.org today!

Passenger service from Grand Central Terminal through North-West Connecticut to Pittsfield will promote sustainable economic development and make NW Connecticut a vibrant model for the kind of rural-urban connections needed in the 21st century. Businesses offering professional jobs will be far more likely to relocate to NW Connecticut when there is easy access to New York, and existing businesses, schools, and organizations will thrive. Please support rail restoration underway by signing the petition (on Change.org), and forward it to friends, family, and colleagues! The Train Campaign needs volunteers, donations, and sponsors too. Learn more, register your support, and spread the word! Email: info@traincampaign.org
